

**02.09.2016**

**Anja Dirks:** 'Just before the GA in Switzerland a new and fresh newsletter to keep you updated. It is the second one in the new and fresh format, just ahead to our new website, which we will present to you. I am so much looking forward to welcoming you all! The program is impressive and the VSI.ASAI as our host organisation has put a lot of effort in it. So already many thanks to them!

In this newsletter you will find, besides the report of our board meetings, some updates about events around Europe. We are strongly hoping that you as members will help us by sending reports, notes and summaries about events or interesting matters about our profession in your country, to share with each other. Just like we are sharing info about the SBID awards, the world interiors day and updates in Estonia in this newsletter. This will broaden the content en open up our perspective and show the richness of interior architecture in Europe!

As a final note, I would like to give a very warm welcome to our last recognized school; CIT Interior Architecture in Cork (Ireland) as a new educational member. And I would like to point out how glad we are that we have met our Spanish member, the CGDI in Madrid the last time.

Please enjoy reading the news and let's meet in Switzerland!

**Anja Dirks**, ECIA President
